Mastery Periodontal

THE ADVANCED APPROACH

**Dr.
Mustafa Gameel**

BDS, MDS, PhD periodontology &
Implantology - Cairo University

Founder of DR.M.Gameel Perlo &
Implant Training center

Advanced Implant program (AIP)

KOL for Neodent,Trate,Deved

COURSE OUTLINE

POCKET ELIMINATION THERAPY :

diagnosis of periodontal disease
Treatment : surgical & non surgical ttt
Regenerative vs resective surgery
MIST, MMIST , papilla preservation flap , single flap approach
What kind of histological healing are we expecting?!!!

PERIO - ORTHO

diagnosis of periodontal disease
Treatment : surgical & non surgical ttt
Regenerative vs resective surgery
MIST, MMIST , papilla preservation flap , single flap approach
What kind of histological healing are we expecting?!!!

PERIO- PROS

Functional crown lengthening
Pontic site development
Vertical preparation
Alternatives of Functional Crown lengthening

PERIODONTAL PLASTIC SURGERY

*Esthetic crown lengthening
diagnosis, factors for decision making, Golden proportions, incisal edge position, lip tone & level
Guided esthetic crown lengthening (with or without bone reduction)
Suturing : principles , materials & techniques : Revealing the hidden science

Diagnosis, classification & management of gingival recession

What is available to treat our patients: CTG & its alternatives
CTG Harvesting techniques & management of donor site
Management of Single & Multiple Recessions
1. CAF
2. MCAF
3. Tunneling
4. VISTA
5. LCT : What Is The Ideal Ttt Protocol
Role of platelet concentrates in soft tissue management
Diagnosis, classification & management of mal positioned implants (when to

Workshop

- Suturing principles & techniques
- Functional & esthetic crown lengthening
- Palatal Graft harvesting
- DE -epithelialized FGG
- Rotated Pedical flap

PERIO - IMPLANT

- maintainance vs creation
- different implant exposure techniques
- Letter incisions (X,T,M,H ,S)
- Palatcci technique
- Split finger technique
- Roll & Modified ROLL flap
- Apically positioned flap
- Emergence profile creation & lab communication
- Management of interdental papilla between implants & teeth (maintance vs creation)
- Role of PET in maintaining IDP

Workshop

- *flap design for hard tissue augmentation
- *root coverage
(CAF , MCAF , Tunnel)

COURSE FEES

Early Registration : 15,000 EGP

Late Registration : 17,000 EGP

VISA

INSTAPAY

REFUND POLICY

- 1- Total Refund till 15th March 2025
- 2- From 16th March till 1st April 2025 , 50% of total package fees will be deducted
- 3- from 2nd April 2025. , No refund
